

Prompt: ●In the space provided below, please elaborate on one of your activities (extracurricular, personal activities, or work experience)(150 words or fewer).

My time in the Boy Scouts of America has changed my life. The outdoors is now a second home to me. I have handled emergency situations correctly because of the first aid skills that I have learned. I have learned how to have a good work ethic, and have become more self-sufficient.

Through the Order of the Arrow, the BSA's national honor society, and a youth-run service organization, I have gained invaluable leadership experiences. At age 14 I was organizing a weekend event for more than one hundred people. By age 17, I was leading a 650 person organization, running executive board meetings, and helping organize all the lodge events.

I have had many mentors through scouting, too. There have been tens of people who have been willing to take me under their wing and teach me a little about what they know. As I begin to transition from a youth to an adult in the Scouting program, I hope to be able to help the current youth as my mentors have helped me, teaching them by example the qualities of service, friendship, work-ethic, and most importantly: love.

My time in the Boy Scouts of America has changed my life. The outdoors is a second home to me. I have handled emergencies correctly because of first aid skills learned in Scouts. I've developed a good work ethic and self-sufficiency.
